PROFILE

Aspiring Web Developer and Python Developer with hands-on experience in building responsive web applications and backend-integrated systems. Strong foundation in frontend development, backend logic using Django, and database management. Focused on clean UI/UX design, structured coding practices, and scalable application development. Passionate about continuous learning and real-world project execution.

EDUCATION

Bachelor of Technology (B.Tech): Computer Science Engineering
K.R. Mangalam University
Graduation Year: 2027

SKILLS

- Web Development: HTML, CSS, JavaScript, Responsive Design
- Database: MySQL, SQLite
- Strengths: Problem Solving, Team Leadership, Project Coordination
- Programming: Python, C++ (Basic), Java (Basic)
- Tools: Django, Git (Basic), GitHub, VS Code

EXPERIENCE

Web Developer (Student Projects)

- Built responsive web pages using HTML, CSS, and JavaScript.
- Designed structured and clean UI layouts.
- Implemented interactive features using DOM manipulation.
- Developed backend-integrated applications using Python and Django.

PROJECTS

Real-Time Election Data Monitoring System

- Developed a web-based election monitoring system using Django and Python.
- Designed relational database models for Election, Candidate, Vote Record, Anomaly, and Alert.
- Implemented automatic anomaly detection based on vote spike logic.
- Integrated real-time alert generation for suspicious voting activity.
- Managed backend development, database migrations, and version control using Git & GitHub.
- Built scalable backend architecture for future ML-based interference detection.

Music Player – Web Application

- Developed a basic music web application using Python and Django.
- Created structured frontend pages using Django templates.
- Implemented backend–frontend connection.
- Designed clean layout and basic control functionality.

Amazon Homepage Clone

- Created Amazon homepage UI using HTML and CSS.
- Designed header, product sections, and footer layout.
- Improved layout structuring and styling accuracy.
- Strengthened frontend design and responsiveness.

ADDITIONAL

- Experience with real-world project structuring.
- Comfortable working under deadlines.
- Consistent self-learning and skill improvement.
